

Adventurers Pick and Mix Homework Challenges - Summer 1

Please complete one of the challenges each week and put evidence of it in your Homework Book. Once you have completed a task, colour the box and add the date you completed it. Homework Books will be collected on Wednesday and returned on Friday.

Maths

Try downloading the White Rose '1 Minute Maths' app. How many questions can you answer in a minute?

English and Science

Create a fact file about a creature that is native to Australia. You may wish to think about...

- What type of creature is it?
- What is its natural habitat?
- What does it eat?
- What are their young called?

History

Who is this man? Why is he remembered?

Religious Education

We are thinking about special places for followers of different faiths. Visit a place that is special to you and/or your family.

You could draw a picture/take a photo of it and tell me about it.

Art

We looked at how portraits can tell us lots about the person in it if you look for clues. Ask someone at home to find an object that tells us something about them. Ask them to hold it while you draw their portrait.

Computing - What am I?

As part of our computing work, we will be classifying animals using 'branch' on School360. To help with this, we need to be really good at looking at similarities and differences. Choose 6 objects (teddies, household items - anything!) and lay them on the table. Select one in your mind and have the other players ask questions to see if they can work out what you are. They can't guess what you are until all of the other objects have been eliminated from the game.
