

'Loving, Learning, Living as we journey together to enable everyone to flourish'

Journey further into.....Superstars!

Here are some activities that will support your child's learning journey this half term. A minimum of one of these is to be completed this term and can be submitted at any time to receive 5 team points. The work will be presented to the class and showcased in school on a Friday.

In English we are sharing the story Alfie's star. Can you design your own star, make a star or even bake a star!

Can you draw a self-portrait?

Around the outside of your self-portrait can you include all of your favourite things that you enjoy doing?

This could be your hobbies, favourite story, food, places to visit...anything you wish!

Have a go at playing Place Value Basketball on Top Marks.

<https://www.topmarks.co.uk/learning-to-count/place-value-basketball>

There will be more maths games added to Education City each week too!

All animals have a habitat. Can you make a list, draw a picture or research animals and match them to their habitat?

What does the habitat provide for the animal?

In Forest Based Learning we are going to be reading a map of our outdoor area. Can you draw a map of your garden or the local park? What is in the garden or park? Can you make a key?

In PSHE we are thinking about people that care for us. Can you bring in a photo of you and your family to share during circle time? We will be sharing them the **week beginning 2nd October**.

Can you draw a mini-beast you might find in your garden or in the woods? Think about the detail you might add to your drawing.

Be creative in the way you present your work it can be on the computer, handwritten, photographed or even a video. Most importantly.....ENJOY!
