

'Loving, Learning, Living as we journey together to enable everyone to flourish'

## Journey further... to an earthquake hotspot!

Here are some activities that will support your child's learning journey this half term. A minimum of one of these is to be completed this term and can be submitted at any time to receive 5 team points. Be creative in the way you present your work!

Do some research on Mary Anning. Think about:  
Who was she?  
What did she do?  
Why is she famous?  
Present your research however you wish.

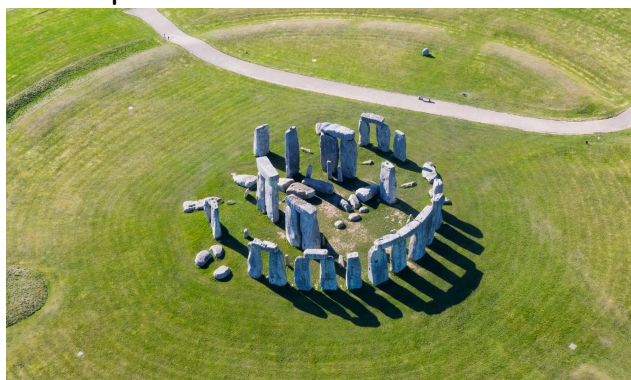

Create a quiz based on last term's animals and skeletons topic. Here is some inspiration:

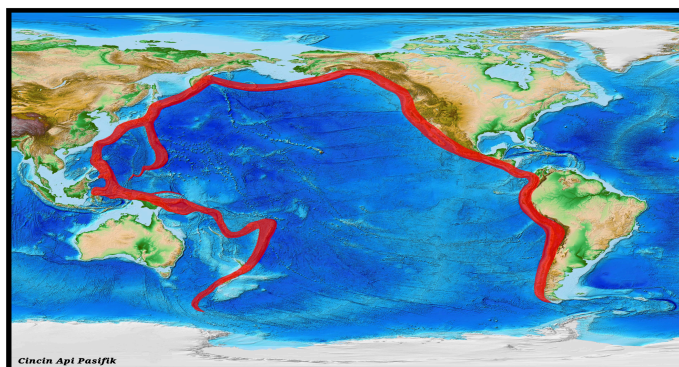

- Vertebrates and invertebrates
- Types of skeleton
- Pros and cons of each skeleton type
- Role of a skeleton
- Facts about the bones in our bodies

Build a Stonehenge! You could use Lego, biscuits or maybe something different! Take a photo of the outcome!

Find out why so many earthquakes and volcanoes occur around the Pacific Ring of Fire!

Compare the lengths and heights of different prehistoric animals.

Create a pre-history poem or a rap. It might be about what life may have been like or about your favourite prehistoric animal.
